## LETTER OF REFERENCE

Carrefour Polska Sp. z o.o. began its partnership with Internet Media Services S.A. in August 2005.

IMS S.A. has installed its Interactive Audiomarketing System in all Carrefour stores in Poland through which it broadcasts a professional music program designed to appeal to Carrefour's customers. Audio advertisements, both internal and commercial campaigns, are also aired in Carrefour stores via the Interactive Audiomarketing System. The ability of IMS S.A. to bring in new advertisers provides an additional source of revenue for our chain.

In describing our experience with IMS S.A., it is worth mentioning the strong commitment and creativity of the company's employees as well as the high quality of services provided.

We can strongly recommend Internet Media Services S.A. as a professional and reliable partner, with the conviction that cooperation with the company will be fruitful and satisfactory.

Sincerely,

Monika Kowalska

Senior Menedżer w Dziale Marketingu Marki I Komunikacji
